Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414. Both of the declarations filed July 9, 2004 and September 26, 2003 fail to include the statement relating to the applicant's belief that the 6,044,983 patent is wholly or partly inoperative or invalid.

Accordingly, claims 1-20, 22-24, 26-37, 39, 49-53 and 56-67 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Additionally, the amendment filed September 25, 2003 is improper since the deletions to the patent have not been included in brackets. See 37 CFR 1.137(d). For example see the deletion of "and" on line 26 of column 2 which has not been included in brackets. Also, support for the amendments has not been provided except in the preliminary amendment of May 2, 2001 and the amendment of July 9, 2004. See 37 CFR 1.137(c). The remaining amendments are defective for failing to include an

Art Unit: 3634

explanation of the support in the disclosure of the patent for the changes made to the claims. It is therefore, suggested that the applicant submit a "housekeeping" amendment which includes all of the pending claims with the proper underlining and bracketing pursuant to 37 CFR 1.137, all amendments to the specification with the proper underlining and bracketing pursuant to 37 CFR 1.137 and support in the original disclosure for all of the amendments made.
